PROGRAM 9

```
public class Size
{
public static void main(String[] args)
{
int number = 44;
String size;
switch (number)
{
case 29:
size = "Small";
break;
case 42:
size = "Medium";
break;
case 44:
size = "Large";
break;
case 48:
size = "Extra Large";
```

```
break;
default:
size = "Unknown";
break;
 }
System.out.println("Size: " + size);
}
}
```

OUTPUT :

Size : Large
